Screen thickness:
Clear: 0.24"
Frosted: 0.22"

Screen Material:
General purpose cast acrylic

Clear   **Frosted**

Bracket Option Details

Post Mount (pages 4 – 10)
- Mounts with adhesive or screws
- Slots in acrylic fit into post mounts
- Two post mounts requred for each screen
- Available for screens 24" - 36" in height and 24" - 72" in width
- Available in silver, black, and white finish

Low Profile Mount (pages 11 – 13)
- Mounts with adhesive
- Adhere anywhere on desk
- Two low profile mounts required for each screen
- Only available for U Shape screens
- Available for screens 24" - 30" in height and 24" - 72" in width
- Available in silver, black, and white finish

Offset Clamp Mount (pages 14 – 16)
- Provides a 0.65" offset gap between back of worksurface and front of screen for desk clamped accessories and cords
- Mounts along the edge of the worksurface
- 0.44" gap between the top of the worksurface and the bottom of the screen
- Clamp positioning on worksurface and screen can be varied if needed to accommodate mounted work tools
- Clamp fits worksurfaces up to 1.33" thick
- Two clamp mounts required for 24" - 48" wide screens
- Three clamp mounts required for 60" and 72" wide screens
- Available for screens 24" - 30" in height and 24" - 72" in width
- Available in silver, black, and white finish

Desktop Clamp Mount (pages 17 – 19)
- Positions screen flush with the edge of the worksurface
- 1.73" gap between the top of the worksurface and the bottom of the screen for cords and wires
- Clamp positioning on worksurface and screen can be varied if needed to accommodate mounted work tools
- Clamp fits worksurfaces up to 1.33" thick
- Two clamp mounts required for 24" - 48" wide screens
- Three clamp mounts required for 60" and 72" wide screens
- Available for screens 24" - 30" in height and 24" - 72" in width
- Available in silver, black, and white finish

Freestanding Mount (pages 20 – 22)
- Can be placed anywhere on surface
- 0.250" gap from top of surface to bottom of screen
- 2 foot brackets per screen for 48" wide and smaller
- 4 foot brackets per screen for 60" wide and larger
- Available for screens 24" and 30" in height and 24"-72" in width
- Silver finish only

Post Style Mount

Offset Clamp Style Mount

Protective screens

Offset mounting bracket allows for clamp on monitor arms and power supplies

Shown with clamp mounted monitor arm and power supply

24"- 48" screen lengths include 2 mounting brackets

60" and 72" screen lengths include 3 mounting brackets

U Shape screens can be built by ordering 3 individual screens

*U Shape screens can be built from the Model Numbers on the following page

Corner brackets recommended for U Shape configurations. Must be ordered separately.

Corner Joining Brackets (Set of two)

Model #	List price
ACR-CRNRBRKT-SET-_ _ _	$50

Note: Corner joining brackets ship as a set of two. A total of four corner joining brackets are needed for U Shape configurations so two sets should be ordered

Product Specs

- Accommodates ESI clamp mount accessories
- Quickly retrofit an existing workspace
- Provides separation and peace of mind when coming back to the office
- Available lengths: 24.0", 30.0", 36.0", 48.0", 60.0", and 72.0" (*screens will be 3/8" shorter than worksurface*)
- Available heights: 24.0" and 30.0" (*height is measured from the top of the worksurface to top of screen. Screens will be 0.75" shorter than nominal height shown*)
- Bracket:
  - Offset clamp bracket
  - Corner joining brackets are suggested whenever a side screen and main screen are installed together
  - Corner joining brackets must be ordered separately (see Corner Joining Bracket ordering information below)
- Clamp brackets are available in black, silver and white finish. Corner joining brackets available in black, silver and white finish to match main brackets
- Offset brackets position screens 0.65" back from the worksurface to allow for clamp-on accessories and wires
- 0.44" gap between the top of the worksurface and the bottom of the screen
- Clamp brackets are compatible with worksurfaces up to 1.33" in thickness
- Available screen styles: Clear and Frosted
- Screen thickness:
  - Clear: 0.24" (CLR)
  - Frosted: 0.22" (FST)
- 24.0", 30.0", 36.0" and 48.0" screens come with two worksurface mounting brackets, 60.0" and 72.0" screens come with three mounting brackets
- Minimum order requirements:
  - Standard screens have NO minimum order qty
  - Custom orders will be assessed on a case-by-case basis depending on the size
- Rounded corners and edges for user safety
- UL 94 Certified
- Lead time 2-4 weeks, pending acrylic is available
- Custom options available, contact our Customer Service Department with questions
- Made of general purpose cast acrylic
- Offset mounting brackets allow for clamp on monitor arms and power supplies
- Warranty: 5 yr

Cleaning Instructions for Acrylic Screen

First time setup: Do not attempt to clean immediately after removing the protective paper because the static electricity will attract dust and particles. Wait a day for the static to dissipate before cleaning.

Step 1

Begin by removing excess dust or dirt from the surface of the acrylic with an air hose or blow dryer set to its coolest setting (never heat acrylic). Hold the blow dryer at a 45-degree angle several inches away from the acrylic and run side-to-side down the surface. Wipe any remaining dust with a soft, lint-free cotton microfiber cloth.

Step 2

Once excess grime has been blown away, spray a nonabrasive acrylic cleaner, such as Brillianize or Novus No. 1 onto a one- or two-foot-square section of acrylic. (For an on-hand alternative, a solution of mild dish soap and water works well too.) Never use abrasive cleaners or anything containing Ammonia such as Formula 409®, Windex® or Fantastik®. Ammonia will cause your acrylic to get cloudy and you can't reverse the effects. Bleach solutions and disinfectants are not recommended and can cause damage to the acrylic.

Once the cleaner has been applied, use a soft, lint-free cotton microfiber cloth to gently wipe the surface down, again being careful to make contact only with the portion of the surface that already has cleaner on it. Continue applying the cleaner and wiping it off in small sections until you've finished the entire surface. Do not use a paper towel to clean acrylic because it can cause scratching.
