## Award-winning service

Our customer obsessive, award-winning team is on call to assist you with all your work gear needs. We are ready to answer your questions or recommend products that help you achieve your best.

## 48 hour shipping

We can fulfill orders in as little as 48 hours based on product on-hand availability. We do this by maintaining high levels of our most popular products so you can meet ambitious deadlines and schedules. Our exceptional fulfillment service ensures you get the products you want, when you want them. Unless otherwise specified, most of ESI's products ship within two business days after your order is placed and acknowledged.

## Lead time

The **LT** product marker indicates that the lead time may vary depending on quantities ordered and their availability. Please contact our Customer Service Department for on-hand inventory when placing orders for products marked with LT. Purchase Orders that include LT designated products will be shipped based on the lead time of the LT designated products. Split shipments are available for orders that include both LT and non-LT products.

## 15 year warranty

Our work gear is backed by an industry-leading 15 year product warranty – giving you confidence to take on your work, your way. View our full warranty policy at [esiergo.com](https://esiergo.com) or contact our Customer Service Department for more information.

## Reserved inventory

Our team is focused on helping you execute large projects on time. We offer a Reserved Inventory Program for projects totaling at least \$15,000 net. Find out how the Reserved Inventory Program can help make your project a success by contacting our Customer Service Department.

## General information

All prices in the catalog are effective July 1, 2019, and are list price. All measurements are accurate within 0.25". Visit our website for additional specs, dimensional drawings, alternative images and more resources for all of ESI's products.

## Sustainability

Sustain and strengthen our environment with ESI. Our company is dedicated to selecting products and adopting forward-thinking procedures that support sustainability. We consider people and our planet with everything we do—from selecting product materials, to recycling programs and our facility operations. When you choose ESI, you are choosing to support our proactive approach to creating quality work gear that also works for the environment.

# Government

ESI is proud to provide ergonomic work gear to federal, state, and local governments.

# Ergonomic guidelines

- 1 Adjustable monitor arms** help eliminate the tendency to sit in awkward positions by maintaining the proper viewing distance, height and angle of the monitor. Monitor arms keep the neck, shoulders and back in the proper posture to reduce muscle fatigue. They also free up the workspace to reduce clutter and increase efficiency and collaboration. Using dual monitors can increase productivity over a single monitor.
- 2 CPU holders** raise the CPU off the floor, making them easier for the user to reach and reducing the tendency to stretch into an awkward position. CPU holders also help free up workspace as well as leg room in user's workstation.
- 3 Adjustable keyboard platforms** help maintain a neutral wrist position and eliminate strain, improper posture, and discomfort. Proper keyboard positioning can help eliminate musculoskeletal disorders.
- 4 Adjustable task lighting** gives the user maximum control of their own workspace lighting for optimal comfort, and help reduce eyestrain and fatigue. Energy efficient lights can reduce energy consumption and costs.
- 5 Height adjustable workstations** give users the flexibility to change positions frequently and easily throughout the day, which improves health and productivity.
- 6 Footrests** can help decrease circulation problems that can occur from long periods of sitting or inactivity. By supporting the legs, footrests can relieve pressure on the lower back.

# Monitor arms

Adaptable for any workspace, flexible monitor arms can optimize your desk space and increase your productivity. Easily adjust up to six monitors to maximize comfort and efficiency. Configurations grow with you, so your monitors will keep pace with your needs.

### Evolve motion arms

Evolve configurations that include a motion arm (M) offer finger touch dynamic height adjustment. That means the monitor can reposition up and down with ease

### Evolve fixed arms

Evolve configurations using only fixed arms (F) have manual height adjustment. They rotate left and right along the pole, offering flexibility with lateral adjustments

### Slider mount

Position virtually any monitor side-by-side with a slider. The slider (S) offers nine inches of horizontal adjustability, so even monitors of varying sizes can be positioned flush

### Flexible growth

Because the Evolve is pole mounted, arms can be added as needed to support additional monitors

### Customize the Evolve

As workstation needs change, so can the Evolve configurations. Additional components are sold separately.
